SECTION A. SUMMARY OF PROJECT

1. **Background:**

In 1981, Kitsap County Division of Aging and Long Term Care (ALTC) was designated as the local Area Agency on Aging (AAA). AAA's are responsible to plan, coordinate and advocate for the development of a comprehensive service delivery system that includes a variety of services to meet the needs of older persons and individuals with disabilities.

- The Division is under the authority of the Human Services Department.

The intent of the request for proposals is to identify a qualified subcontractor to administer and provide all services for the Senior and Family Caregiver Nutrition Services program throughout Kitsap County, which includes;

- Senior Congregate Nutrition/Community Dining Sites, including alternative "grab and go" meals
- Home Delivered Meals,
- Liquid Supplement Meals,
- Medicaid Waivered Services, including Medicaid Transformation Demonstration programs
- Senior Farmers Market Nutrition Program

All services must meet COVID safety standards as defined by Washington State Department of Social and Health (DSHS) Services Aging and Long Term Supports Administration (AL TSA), Department of Health (DOH) and lead health jurisdiction guidelines.

Senior Nutrition services are to be provided to persons aged sixty (60) years or over who reside in Kitsap County. All services funded by Federal Older Americans Act, (Title 42, Section 3026 of Public Law 109-365) as amended, require subcontractors to "give particular attention to low-income older individuals, including low-income minority older individuals, older individuals with limited English proficiency, and older individuals residing in rural areas." Greatest economic need is defined as being at or below the Federal Poverty Level. Services are not targeted to seniors living in residential care facilities.

Family Caregiver Support and Medicaid-funded home delivered meals through Community Options Program Entry System (COPES), Community First Choice (CFC), Medicaid Alternative Care (MAC) and Tailored Supports for Older Adults (TSOA) are provided to individuals determined eligible prior to referral to the subcontractor. Services are authorized by case managers and reimbursement is claimed through DSHS ProviderOne. This program provides much more than just food, it provides a nutritious meal and an in-person contact to monitor general well-being and safety. And for family caregivers, the program also provides a break.

2. **Goal:**

The Washington State Department of Social and Health Services (DSHS) Aging and Long Term Care Administration (AL TSA) requires each Area Agency on Aging (AAA) to provide nutrition services.

The Kitsap County Division of Aging and Long Term Care (ALTC), as the local AAA, establishes the criteria and subcontracts for nutrition services January 1-December 31, 2023.

The goal is to subcontract a nutrition services provider. The expectation is that the subcontractor provides on an annual basis, approximately:

- 21,000 congregate community meals or, as approved during a public health emergency, alternative “grab and go” at community dining sites throughout various locations in Kitsap County;
- 40,280 home delivered meals (35,000 hot or frozen and 5,280 Ensure liquid nutrition supplements). Meals will be provided for Older Adults 60+, Medicaid-funded services clients, and Family Caregiver Support Program clients.
Liquid nutrition supplements will be provided to eligible home delivered meal clients with physician’s orders to eligible persons aged sixty (60) years of age or older;
- 125 hours of nutrition education and dietary counseling for 275 program participants;
- 770 eligible seniors with up to \$80 in vouchers to access fresh produce through the Senior Farmers’ Market Nutrition Program

*These numbers are projections that may change with funding.

Subcontracting for services includes procuring a service provider, entering into a contractual relationship, receiving invoices and reimbursing for service delivery, assessing the quality of the service provider's agency and fiscal management, as well as the quality and efficacy of the services provided.

The certificate will, at a minimum, list limits of liability and coverage. The certificate will provide that the underlying insurance contract may not be canceled, or allowed to expire, except on 30-days' prior written notice to the County. Any certificate or endorsement limiting or negating the insurer's obligation to notify the County of cancellation or changes must be amended so as not to negate the intent of this provision.

- C. The Contractor will furnish the County with evidence that the additional-insured provision required above has been met. Acceptable forms of evidence are the endorsement pages of the policy showing the County as an additional insured, or a letter of self insurance from a public entity risk pool which waives the requirement.

In addition to other grant funds awarded under this Contract, Nutrition Services Incentive Program (NSIP) cash may be made available to the Contractor for the purchase of food to be used in the Senior Nutrition Project. Therefore, anticipated federal funds divided by 0.85 will yield the minimum total effort, and the required match is the difference between the anticipated federal amount and the minimum total effort. If the actual total project expense is greater than this amount, that difference is described as funds/support "in addition to match." If the actual expense is less than the minimum effort projected, the federal funds claimable will be reduced to 85% of the new total. Contractor must show that the match requirement has been satisfied each month as calculated on the reimbursement form.

Maximum consideration for purposes of this Contract period shall be **\$487,000**.

PROVIDED, if Contractor fails to meet the quarterly spending projections as per Attachment C the total amount of the award may be reduced by an amount not to exceed the difference between the quarterly spending projections and the actual spending rate for the period.

Unearned funds from one project period will not be carried over into any succeeding period but will be redistributed to the program contractors according to a formula developed by County. If the cost of the project exceeds the projected quarterly expenditures as per Attachment C: Budget, the Contractor shall take action to reduce such excess cost in a manner mutually agreed upon by County and Contractor.

ALLOWABLE COSTS

In order to be allowable, County must approve costs. The following procedures govern approval of these costs:

- 2) If costs are specified in a budget, approval of the budget shall constitute approval of the costs.
- 3) If costs are not specified in a budget or there is no approved budget, the Contractor shall obtain specific prior approval in writing.

 3. **Consideration.** Total consideration payable to the AAA for satisfactory performance of the work under this Agreement is a maximum of **\$4,085,051**, including any and all expenses and shall be based on the attached Exhibit B, Budget.
 4. **Billing and Payment.**

Special Terms and Conditions

- a. **Billing.** The AAA shall submit invoices using State Form A-19 Invoice Voucher, or such other form as designated by DSHS. Consideration for services rendered shall be payable upon receipt and acceptance of properly completed invoices which shall be submitted to DSHS by the AAA not more often than monthly.

Except for costs associated with Case Management and Nursing Services for MPC, COPES, MNIW, and Chore clients, DSHS will pay to the AAA all allowable and allocable costs incurred as evidenced by proper invoice in accordance with the ADSA approved AAA Cost Allocation Plan, Budget (Exhibit B), and Section 3, Consideration, of this Agreement. The invoice shall describe and document to DSHS' satisfaction, the work performed, activities accomplished, progress of the project, and fees.

- b. **Payment.** Payment for **Medicaid Case Management and Nursing Services**, including Medicaid State plan, Waiver, Roads to Community Living (RCL), and state-funded Chore clients will be based on a monthly rate of \$235.38 from DSHS Allocated Title XIX/Chore funding per month for each in-home agency personal care or in-home individual provider authorized case authorized by the AAA each month. In addition, a percentage of in-home cases authorized with a service, but no personal care, will be paid at the full unit rate. (The percentage will be noted on the SFY23 TXIX Case Management billing form and SFY23 TXIX Matched Case Management billing form and may be adjusted at ALTSA's discretion).

Payment for **Core Services Contract Management** for Medicaid State Plan, Waiver, Roads to Community Living (RCL)/WA Roads, and state-funded Chore clients will be based on a monthly rate of \$16.21 from DSHS Allocated Title XIX/Chore funding per month for each in-home agency personal care or in-home individual provider case authorized to the AAA each month. In addition, a percentage of in-home cases authorized with a service, but no personal care, will be paid at the full unit rate.

The average monthly projection of such cases over the course of this Agreement is 1,001. The AAA will be paid for the number of actual cases authorized each month according to the payment schedule above. The legislature has funded AAAs to have a caseload ratio of 75:1. AAAs will provide a written plan by July 15, 2022 to reach that target by January 1, 2023. The AAA may present good cause reasons and supporting data why they were not able to reach their target, such as staffing turnover or other unforeseen circumstances.

DSHS and the AAA recognize that we are balancing multiple changing factors that impact both caseload and workforce coming out of the extended pandemic. If the AAA has difficulty reaching the ratio by January 1, 2023, the AAA and DSHS will mutually work to update the written staffing plan and resolve any conditions that will cause case ratios to rise about 75:1.

If the AAA is referred and serves a WA Roads case that is not otherwise counted in the caseload above, payment will be based on the same monthly rates as above from WA Roads funding. These cases will be considered in the clinical caseload ratio. This funding will not be reflected in the contract budget or maximum consideration.

If ADS or Pierce meet their quarterly targeted net growth of New Freedom cases as described in section 1.g of Exhibit A Statement of Work, they will receive a Unit Rate enhancement of 5% for all New Freedom client cases billed during that quarter. This funding will not be reflected in the contract budget or maximum consideration.

Payment shall be considered timely if made by DSHS within thirty (30) days after receipt and acceptance by DSHS of the properly completed invoices. Payment shall be sent to the address designated by the AAA on page one (1) of this Agreement. DSHS may, at its sole discretion,

Special Terms and Conditions

withhold payment claimed by the AAA for services rendered if AAA fails to satisfactorily comply with any term or condition of this Agreement.

DSHS shall not make any payments in advance or anticipation of the delivery of services to be provided pursuant to this Agreement. Unless otherwise specified in this Agreement, DSHS shall not pay any claims for payment for services submitted more than one (1) year after completion of the contract period. The AAA shall not bill DSHS for services performed under this Agreement, and DSHS shall not pay the AAA, if the AAA has charged or will charge the State of Washington or any other party under any other contract or agreement for the same services.

- c. **Local Matching Funds:** The AAA may spend qualifying local funds on TXIX in-home case management and use it to collect additional federal matching funds. The amount of Senior Citizens Services Act funding budgeted for TXIX in-home case management in the previous state fiscal year may be carried forward into this contract and inflated by the consumer price index (CPI) used in the caseload ratio adjustment factor as matching funds to draw down additional federal match. The CPI is 7.6% in SFY23. Any additional requests for SCSA or other local fund sources to be matched must be approved by ALTSA and may require additional FTE to be purchased with these funds. A new clinical ratio or case handling ratio will be negotiated with ALTSA to draw down additional matching funds per the local matching funds schedule. If additional SCSA is proposed as a local match source, the AAA will report any impacts of reallocating SCSA funding when making the request to ALTSA.
- d. **Local Matching Funds schedule:** The AAA may increase the TXIX Requested Match as an add-on for the unit rate for each authorized in-home agency personal care case, in-home individual provider, no personal care, and New Freedom case accepted by the AAA each month per the schedule below.

If Clinical Ratio is 1:	Then State/Local	Fed Match

- e. The AAA shall complete and submit the attached Local Match Certification Form (Exhibit C) with their final billing. Final payment will not be made without the completed form.
- f. State General Fund dollars were awarded to AAAs and must be applied to match requirements of the ARP Act funding as follows:

Match Requirements

- (1) 25% match is required to be applied for administration expenditures.

Special Terms and Conditions

(2) Service Match of 15% is required for Support Services, Congregate Meals, and Home Delivered Meals. ARP Program Income may also be used for match.

(3) Service Match of 25% is required for Family Caregiver Support Program/Kinship Caregiver Support Program Services.

Note: At least 33% (1/3) of the 15% match for services for TIII-B, TIII C-1, and TIII C-2 must come from state sources.

- g. Payment of \$331 per client per year for annual assessment services, including significant change and interim assessment/s as needed, for in-home client participants of the Program of All-Inclusive Care for the Elderly (PACE). Participating AAAs (Pierce County ALTC, ALTCEW and Snohomish County LTCA AAA only) can only receive reimbursement once in a twelve-month period.
5. **Confidentiality.** In addition to General Terms and Conditions Confidentiality language, the AAA or its Subcontractors may disclose information to each other, to DSHS, or to appropriate authorities, for purposes directly connected with the services provided to the client. This includes, but is not limited to, determining eligibility, providing services, and participation in disputes, fair hearings or audits. The AAA and its Subcontractors shall disclose information for research, statistical, monitoring and evaluation purposes conducted by appropriate federal agencies and DSHS.
6. **Amendment Clause Exception.** The only exception to the General Term and Condition Amendment clause (clause 1.) is when an amendment must be processed to distribute federal funds to the Contractor and the funds must be obligated in a Short Timeframe. Short Timeframe means the Contractor is unable to follow their standard contract execution procedures in order to timely obligate the federal funds. By execution of this Contract, the Contractor prospectively agrees to the terms of the federal fund distribution amendment, which shall be limited to only adding funds to the Contractor's Budget. The Contractor's designated point-of-contact shall also email DSHS its acceptance of the amendment no later than the amendment start date.
7. **Duty to Disclose Business Transactions.**
- a. Pursuant to 42 CFR 455.105(b), within 35 days of the date on a request by the Secretary of the U.S. Department of Health and Human Services or DSHS, Contractor must submit full and complete information related to Contractor's business transactions that include:
- (1) The ownership of any subcontractor with whom the Contractor has had business transactions totaling more than \$25,000 during the 12-month period ending on the date of the request; and
- (2) Any significant business transactions between the Contractor and any wholly owned supplier, or between the Contractor and any subcontractor, during the 5-year period ending on the date of the request.
- b. Failure to comply with requests made under this term may result in denial of payments until the requested information is disclosed. See 42 CFR 455.105(c).
8. **State or Federal Audit Requests.** The contractor is required to respond to State or Federal audit requests for records or documentation, within the timeframe provided by the requestor. The Contractor must provide all records requested to either State or Federal agency staff or their designees.
9. **Grant Award Documents.** Exhibit D, Grant Award Documents are attached hereto or will be sent separately once received from the Administration of Community Living and incorporated herein with no contract amendment needed.

Special Terms and Conditions

10. **Sovereign Immunity – Colville and Yakama only.** Nothing whatsoever in this Agreement constitutes or shall be construed as a waiver of the Indian Nation's sovereign immunity.

Exhibit A, Statement of Work

The AAA shall provide the following services, as specified in the AAA's current area plan, either directly or through administrative oversight or subcontractors. The AAA shall comply with all applicable state and federal statute and rules, including but not limited to the United States Code, the Code of Federal Regulations, the Revised Code of Washington, the Washington Administrative Code, Federal Program Waivers for COVID-19, and any and all DSHS/ALTSA standards, guidelines, policy manuals, and management bulletins, including management bulletins that grant or remove temporary COVID-19 flexibilities.

If a proposed change or combination of changes in any DSHS/ALTSA standard, guideline, policy manual and/or management bulletin after the commencement of this agreement creates a new and material impact, to the extent possible and as quickly as possible DSHS will consult with the AAA or its professional association to identify potential impacts and when possible, identify how to mitigate impacts within available funding.

Due to COVID-19 pandemic impacts, disaster relief, and recovery efforts, many of the programs and requirements in this statement of work have been granted flexibilities as a result of Federal program waivers approved by Centers for Medicare and Medicaid, in management bulletins and rapid emergency response communications between AAAs and ALTSA in early 2020. ALTSA and the AAAs have been operating in close partnership and frequent communication under extraordinary circumstances that require frequent adaptation to meet the needs of Washingtonians. Some requirements for the services in this contract may continue to be relaxed, suspended, or achieved by alternate methods during the COVID-19 emergency and recovery period. Communications issued via email may be used to document flexibilities and do not require a contract amendment.

The AAAs shall provide SFCSP services in accordance with Chapter 17a of the Long Term Care Manual and in accordance with chapter 74.41 RCW and all applicable regulations in chapter 388-71 WAC, WAC 388-106-1200 to 1230, 388-78A-2202 -2208 and 388-97-1880. The exception to this rule would be Colville and Yakama Nation AAA who may be limited in funding to provide all of the core FCSP services. The evidence-based, Tailored Caregiver Assessment and Referral system (TCARE®) is utilized and required to screen, assess and consult with family caregivers to develop an individualized care plan to help provide the right services to meet the unmet needs at the right time. All TCARE® users must be licensed.

For Respite Services, both in-home and out-of-home respite care provider agencies shall be available (except where certain types of providers are unavailable) and provided on an hourly basis. a blend of health, social and family caregiver supports – it is defined and requirements are specified in the "Memory Care & Wellness Services (MCWS) Standards of Care, (updated 2019).

AAAs that offer Memory Care & Wellness Services (MCWS) will work collaboratively with DSHS/ALTSA and providers in implementing strategies that ensure fidelity to MCWS requirements and that promote sustainability of the program. Participating AAAs will ensure that program requirements are incorporated into contracts with adult day services providers that choose to provide the MCWS.

- b. MCWS Program Requirements: Program requirements include (1) MCWS Standards of Care (2019) and (2) the integral Exercise for Mobility, previously known as EnhanceMobility, exercise intervention [and any subsequent updates of both (1) and (2)]. Participating AAAs will also work with DSHS/ALTSA to develop and implement strategies that promote fidelity to the MCWS Standards of Care to measure compliance with standards, including incorporation of the MCWS Monitoring Tool (updated 2019) into adult day services monitoring visits with MCWS providers. The AAA will also use the MCWS Readiness Tool for with any sites that are new contractors for the MCWS program to assess capacity and needed improvements prior to contracting. The MCWS Standards of Care and MCWS Monitoring Tool and materials, and MCWS Readiness Tool are available on the DSHS/ALTSA Intranet site, in the TCARE Online Resources page. <http://intra.altsa.dshs.wa.gov/tcare/memory.htm>
- c. MCWS Program Funds: Funds were targeted specifically for MCWS within the Family Caregiver Support Program to support an ongoing program for eligible family caregivers a minimum of two days per week. As this funding was intended to supplement existing FCSP allotments to MCWS, the target numbers to be served and the budget is built with the assumption that each month MCWS-specific funding will pay half and FCSP will pay half of the cost of MCWS each month.
- d. MCWS Proposed Targets and Funding: Each AAA will submit to DSHS/ALTSA proposed target numbers for the remainder of FY 2023 (caregiver/care receiver dyads) for MCWS by January 31, 2023, along with the semi-annual report detailed in the final paragraph of this MCWS section. This proposal will reflect the total number of dyads to be served with the combined MCWS-specific and FCSP funding, and take into account what has been learned over the last year about average days of utilization per month/year per caregiver, and anticipated program income/participation.

For SFY23, DSHS/ALTSA will allocate the same amount of MCWS funding that King was allocated for SFY23: \$82,447.

- e. MCWS Tracking Expenditures and Reporting: The SFCSP BARS includes a line for billing to the MCWS line; this line is used by King only.

To ensure optimal use of this funding, progress towards target numbers and expenditures will be assessed once the 1st quarter report with a due date of October 31, 2023 is received. In addition, the semi-annual reports covering the periods (July - December XXXX due January 31, 2023 (with data as of December 31, 2022) and January – June 2023 due July 30, 2023) are required and should include the same information detailed above for the 1st quarter report.

The AAA shall take reasonable precautions to secure against unauthorized physical and electronic access to data, which shall be protected in a manner that prevents unauthorized persons, including the general public, from retrieving data by means of computer, remote terminal, or other means. The AAA shall take due care to ensure AAA and its subcontractors protect said data from unauthorized physical and electronic access. The data will be stored on computers with security systems that require individual user IDs and hardened passwords. Only persons who have signed the *Contractor Agreement on Nondisclosure of Confidential Information form* covering this data share agreement will be able to access the data that Washington State shares with the AAA under this Agreement.
- b. The AAA shall ensure disks and/or documents generated in printed form from the electronic file are properly returned, destroyed or shredded when no longer needed so unauthorized individuals

Special Terms and Conditions

cannot access client information. Data destroyed shall include all copies of any data sets in possession after the data has been used for the purpose specified herein or within 30 days of the date of termination and certify such destruction to DSHS. DSHS shall be responsible for destroying the returned documents to ensure confidentiality is maintained. The Data provided by DSHS will remain the property of DSHS and will be promptly destroyed as allowed by law and when the AAA and its subcontractors have completed the work for which the information was required, as fully described by incorporated Exhibit A Data Security Requirements.

- c. The AAA shall protect information according to state and federal laws including the following incorporated by reference:
 - (1) Privacy Act 1974 5 USC subsection 552a;
 - (2) Chapter 40.14 RCW Preservation and Destruction of Public Records;
 - (3) Chapter 74.04 RCW General Provisions – Administration;
 - (4) Chapter 42.56.210 RCW Certain Personal & Other Records Exempt;
 - (5) 45 CFR 205.50 provides for Safeguarding information for the financial assistance Programs and identifies limitations to disclosure of said information; and,
 - (6) Public Law 99-508 (18 USC section 2510et. Seq. Electronic Communications Privacy Act of 1986) Part A of Title IV of the Social Security Act authorizes disclosure of client information and provides for safeguards, which restrict the use or disclosure of information concerning applicants or recipients to purposes directly connected with administration of the program.
- d. AAA employees, contractors, and agents that have access to the ACES system will ensure that they comply with the security and safeguarding requirements as per the AL TSA/ESA Data Sharing MOU
- e. ADS/Seattle King County AAA - DSHS expressly acknowledges and agrees that Contractor may share PHI with Collective Medical and place PHI on the Collective Medical system, thereby permitting other medical providers to access and use the PHI for purposes of medical treatment. Contractor shall submit its contract with Collective Medical to DSHS for approval.

Special Terms and Conditions

Exhibit A – Data Security Requirements

1. **Definitions.** The words and phrases listed below, as used in this Exhibit, shall each have the following definitions:
 - a. "AES" means the Advanced Encryption Standard, a specification of Federal Information Processing Standards Publications for the encryption of electronic data issued by the National Institute of Standards and Technology (<http://nvlpubs.nist.gov/nistpubs/FIPS/NIST.FIPS.197.pdf>).
 - b. "Authorized Users(s)" means an individual or individuals with a business need to access DSHS Confidential Information, and who has or have been authorized to do so.
 - c. "Business Associate Agreement" means an agreement between DSHS and a contractor who is receiving Data covered under the Privacy and Security Rules of the Health Insurance Portability and Accountability Act of 1996. The agreement establishes permitted and required uses and disclosures of protected health information (PHI) in accordance with HIPAA requirements and provides obligations for business associates to safeguard the information.
 - d. "Category 4 Data" is data that is confidential and requires special handling due to statutes or regulations that require especially strict protection of the data and from which especially serious consequences may arise in the event of any compromise of such data. Data classified as Category 4 includes but is not limited to data protected by: the Health Insurance Portability and Accountability Act (HIPAA), Pub. L. 104-191 as amended by the Health Information Technology for Economic and Clinical Health Act of 2009 (HITECH), 45 CFR Parts 160 and 164; the Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. §1232g; 34 CFR Part 99; Internal Revenue Service Publication 1075 (<https://www.irs.gov/pub/irs-pdf/p1075.pdf>); Substance Abuse and Mental Health Services Administration regulations on Confidentiality of Alcohol and Drug Abuse Patient Records, 42 CFR Part 2; and/or Criminal Justice Information Services, 28 CFR Part 20.
 - e. "Cloud" means data storage on servers hosted by an entity other than the Contractor and on a network outside the control of the Contractor. Physical storage of data in the cloud typically spans multiple servers and often multiple locations. Cloud storage can be divided between consumer grade storage for personal files and enterprise grade for companies and governmental entities. Examples of consumer grade storage would include iTunes, Dropbox, Box.com, and many other entities. Enterprise cloud vendors include Microsoft Azure, Amazon Web Services, and Rackspace.
 - f. "Encrypt" means to encode Confidential Information into a format that can only be read by those possessing a "key"; a password, digital certificate or other mechanism available only to authorized users. Encryption must use a key length of at least 256 bits for symmetric keys, or 2048 bits for asymmetric keys. When a symmetric key is used, the Advanced Encryption Standard (AES) must be used if available.
 - g. "FedRAMP" means the Federal Risk and Authorization Management Program (see www.fedramp.gov), which is an assessment and authorization process that federal government agencies have been directed to use to ensure security is in place when accessing Cloud computing products and services.
 - h. "Hardened Password" means a string of at least eight characters containing at least three of the following four character classes: Uppercase alphabetic, lowercase alphabetic, numeral, and special characters such as an asterisk, ampersand, or exclamation point.

Special Terms and Conditions

- i. "Mobile Device" means a computing device, typically smaller than a notebook, which runs a mobile operating system, such as iOS, Android, or Windows Phone. Mobile Devices include smart phones, most tablets, and other form factors.
 - j. "Multi-factor Authentication" means controlling access to computers and other IT resources by requiring two or more pieces of evidence that the user is who they claim to be. These pieces of evidence consist of something the user knows, such as a password or PIN; something the user has such as a key card, smart card, or physical token; and something the user is, a biometric identifier such as a fingerprint, facial scan, or retinal scan. "PIN" means a personal identification number, a series of numbers which act as a password for a device. Since PINs are typically only four to six characters, PINs are usually used in conjunction with another factor of authentication, such as a fingerprint.
 - k. "Portable Device" means any computing device with a small form factor, designed to be transported from place to place. Portable devices are primarily battery powered devices with base computing resources in the form of a processor, memory, storage, and network access. Examples include, but are not limited to, mobile phones, tablets, and laptops. Mobile Device is a subset of Portable Device.
 - l. "Portable Media" means any machine readable media that may routinely be stored or moved independently of computing devices. Examples include magnetic tapes, optical discs (CDs or DVDs), flash memory (thumb drive) devices, external hard drives, and internal hard drives that have been removed from a computing device.
 - m. "Secure Area" means an area to which only authorized representatives of the entity possessing the Confidential Information have access, and access is controlled through use of a key, card key, combination lock, or comparable mechanism. Secure Areas may include buildings, rooms or locked storage containers (such as a filing cabinet or desk drawer) within a room, as long as access to the Confidential Information is not available to unauthorized personnel. In otherwise Secure Areas, such as an office with restricted access, the Data must be secured in such a way as to prevent access by non-authorized staff such as janitorial or facility security staff, when authorized Contractor staff are not present to ensure that non-authorized staff cannot access it.
 - n. "Trusted Network" means a network operated and maintained by the Contractor, which includes security controls sufficient to protect DSHS Data on that network. Controls would include a firewall between any other networks, access control lists on networking devices such as routers and switches, and other such mechanisms which protect the confidentiality, integrity, and availability of the Data.
 - o. "Unique User ID" means a string of characters that identifies a specific user and which, in conjunction with a password, passphrase or other mechanism, authenticates a user to an information system.
2. **Authority.** The security requirements described in this document reflect the applicable requirements of Standard 141.10 (<https://ocio.wa.gov/policies>) of the Office of the Chief Information Officer for the state of Washington, and of the DSHS Information Security Policy and Standards Manual. Reference material related to these requirements can be found here: <https://www.dshs.wa.gov/ffa/keeping-dshs-client-information-private-and-secure>, which is a site developed by the DSHS Information Security Office and hosted by DSHS Central Contracts and Legal Services.
3. **Administrative Controls.** The Contractor must have the following controls in place:

Special Terms and Conditions

- a. A documented security policy governing the secure use of its computer network and systems, and which defines sanctions that may be applied to Contractor staff for violating that policy.
 - b. If the Data shared under this agreement is classified as Category 4, the Contractor must be aware of and compliant with the applicable legal or regulatory requirements for that Category 4 Data.
 - c. If Confidential Information shared under this agreement is classified as Category 4, the Contractor must have a documented risk assessment for the system(s) housing the Category 4 Data.
4. **Authorization, Authentication, and Access.** In order to ensure that access to the Data is limited to authorized staff, the Contractor must:
- a. Have documented policies and procedures governing access to systems with the shared Data.
 - b. Restrict access through administrative, physical, and technical controls to authorized staff.
 - c. Ensure that user accounts are unique and that any given user account logon ID and password combination is known only to the one employee to whom that account is assigned. For purposes of non-repudiation, it must always be possible to determine which employee performed a given action on a system housing the Data based solely on the logon ID used to perform the action.
 - d. Ensure that only authorized users are capable of accessing the Data.
 - e. Ensure that an employee's access to the Data is removed immediately:
 - (1) Upon suspected compromise of the user credentials.
 - (2) When their employment, or the contract under which the Data is made available to them, is terminated.
 - (3) When they no longer need access to the Data to fulfill the requirements of the contract.
 - f. Have a process to periodically review and verify that only authorized users have access to systems containing DSHS Confidential Information.
 - g. When accessing the Data from within the Contractor's network (the Data stays within the Contractor's network at all times), enforce password and logon requirements for users within the Contractor's network, including:
 - (1) A minimum length of 8 characters, and containing at least three of the following character classes: uppercase letters, lowercase letters, numerals, and special characters such as an asterisk, ampersand, or exclamation point.
 - (2) That a password does not contain a user's name, logon ID, or any form of their full name.
 - (3) That a password does not consist of a single dictionary word. A password may be formed as a passphrase which consists of multiple dictionary words.
 - (4) That passwords are significantly different from the previous four passwords. Passwords that increment by simply adding a number are not considered significantly different.

Special Terms and Conditions

- h. When accessing Confidential Information from an external location (the Data will traverse the Internet or otherwise travel outside the Contractor's network), mitigate risk and enforce password and logon requirements for users by employing measures including:
 - (1) Ensuring mitigations applied to the system don't allow end-user modification.
 - (2) Not allowing the use of dial-up connections.
 - (3) Using industry standard protocols and solutions for remote access. Examples would include RADIUS and Citrix.
 - (4) Encrypting all remote access traffic from the external workstation to Trusted Network or to a component within the Trusted Network. The traffic must be encrypted at all times while traversing any network, including the Internet, which is not a Trusted Network.
 - (5) Ensuring that the remote access system prompts for re-authentication or performs automated session termination after no more than 30 minutes of inactivity.
 - (6) Ensuring use of Multi-factor Authentication to connect from the external end point to the internal end point.
 - i. Passwords or PIN codes may meet a lesser standard if used in conjunction with another authentication mechanism, such as a biometric (fingerprint, face recognition, iris scan) or token (software, hardware, smart card, etc.) in that case:
 - (1) The PIN or password must be at least 5 letters or numbers when used in conjunction with at least one other authentication factor
 - (2) Must not be comprised of all the same letter or number (11111, 22222, aaaaa, would not be acceptable)
 - (3) Must not contain a "run" of three or more consecutive numbers (12398, 98743 would not be acceptable)
 - j. If the contract specifically allows for the storage of Confidential Information on a Mobile Device, passcodes used on the device must:
 - (1) Be a minimum of six alphanumeric characters.
 - (2) Contain at least three unique character classes (upper case, lower case, letter, number).
 - (3) Not contain more than a three consecutive character run. Passcodes consisting of 12345, or abcd12 would not be acceptable.
 - k. Render the device unusable after a maximum of 10 failed logon attempts.
5. **Protection of Data.** The Contractor agrees to store Data on one or more of the following media and protect the Data as described:
- a. **Hard disk drives.** For Data stored on local workstation hard disks, access to the Data will be restricted to Authorized User(s) by requiring logon to the local workstation using a Unique User ID

Special Terms and Conditions

and Hardened Password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards.

- b. **Network server disks.** For Data stored on hard disks mounted on network servers and made available through shared folders, access to the Data will be restricted to Authorized Users through the use of access control lists which will grant access only after the Authorized User has authenticated to the network using a Unique User ID and Hardened Password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards. Data on disks mounted to such servers must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.

For DSHS Confidential Information stored on these disks, deleting unneeded Data is sufficient as long as the disks remain in a Secure Area and otherwise meet the requirements listed in the above paragraph. Destruction of the Data, as outlined below in Section 8 Data Disposition, may be deferred until the disks are retired, replaced, or otherwise taken out of the Secure Area.

- c. **Optical discs (CDs or DVDs) in local workstation optical disc drives.** Data provided by DSHS on optical discs which will be used in local workstation optical disc drives and which will not be transported out of a Secure Area. When not in use for the contracted purpose, such discs must be Stored in a Secure Area. Workstations which access DSHS Data on optical discs must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.
- d. **Optical discs (CDs or DVDs) in drives or jukeboxes attached to servers.** Data provided by DSHS on optical discs which will be attached to network servers and which will not be transported out of a Secure Area. Access to Data on these discs will be restricted to Authorized Users through the use of access control lists which will grant access only after the Authorized User has authenticated to the network using a Unique User ID and Hardened Password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards. Data on discs attached to such servers must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.
- e. **Paper documents.** Any paper records must be protected by storing the records in a Secure Area which is only accessible to authorized personnel. When not in use, such records must be stored in a Secure Area.
- f. **Remote Access.** Access to and use of the Data over the State Governmental Network (SGN) or Secure Access Washington (SAW) will be controlled by DSHS staff who will issue authentication credentials (e.g. a Unique User ID and Hardened Password) to Authorized Users on Contractor's staff. Contractor will notify DSHS staff immediately whenever an Authorized User in possession of such credentials is terminated or otherwise leaves the employ of the Contractor, and whenever an Authorized User's duties change such that the Authorized User no longer requires access to perform work for this Contract.
- g. **Data storage on portable devices or media.**
 - (1) Except where otherwise specified herein, DSHS Data shall not be stored by the Contractor on portable devices or media unless specifically authorized within the terms and conditions of the Contract. If so authorized, the Data shall be given the following protections:

Special Terms and Conditions

- (a) Encrypt the Data.
 - (b) Control access to devices with a Unique User ID and Hardened Password or stronger authentication method such as a physical token or biometrics.
 - (c) Manually lock devices whenever they are left unattended and set devices to lock automatically after a period of inactivity, if this feature is available. Maximum period of inactivity is 20 minutes.
 - (d) Apply administrative and physical security controls to Portable Devices and Portable Media by:
 - i. Keeping them in a Secure Area when not in use,
 - ii. Using check-in/check-out procedures when they are shared, and
 - iii. Taking frequent inventories.
 - (2) When being transported outside of a Secure Area, Portable Devices and Portable Media with DSHS Confidential Information must be under the physical control of Contractor staff with authorization to access the Data, even if the Data is encrypted.
- h. Data stored for backup purposes.**
- (1) DSHS Confidential Information may be stored on Portable Media as part of a Contractor's existing, documented backup process for business continuity or disaster recovery purposes. Such storage is authorized until such time as that media would be reused during the course of normal backup operations. If backup media is retired while DSHS Confidential Information still exists upon it, such media will be destroyed at that time in accordance with the disposition requirements below in Section 8 *Data Disposition*.
 - (2) Data may be stored on non-portable media (e.g. Storage Area Network drives, virtual media, etc.) as part of a Contractor's existing, documented backup process for business continuity or disaster recovery purposes. If so, such media will be protected as otherwise described in this exhibit. If this media is retired while DSHS Confidential Information still exists upon it, the data will be destroyed at that time in accordance with the disposition requirements below in Section 8 *Data Disposition*.
- i. Cloud storage.** DSHS Confidential Information requires protections equal to or greater than those specified elsewhere within this exhibit. Cloud storage of Data is problematic as neither DSHS nor the Contractor has control of the environment in which the Data is stored. For this reason:
- (1) DSHS Data will not be stored in any consumer grade Cloud solution, unless all of the following conditions are met:
 - (a) Contractor has written procedures in place governing use of the Cloud storage and Contractor attests in writing that all such procedures will be uniformly followed.
 - (b) The Data will be Encrypted while within the Contractor network.
 - (c) The Data will remain Encrypted during transmission to the Cloud.

Special Terms and Conditions

- (d) The Data will remain Encrypted at all times while residing within the Cloud storage solution.
 - (e) The Contractor will possess a decryption key for the Data, and the decryption key will be possessed only by the Contractor and/or DSHS.
 - (f) The Data will not be downloaded to non-authorized systems, meaning systems that are not on either the DSHS or Contractor networks.
 - (g) The Data will not be decrypted until downloaded onto a computer within the control of an Authorized User and within either the DSHS or Contractor's network.
- (2) Data will not be stored on an Enterprise Cloud storage solution unless either:
- (a) The Cloud storage provider is treated as any other Sub-Contractor, and agrees in writing to all of the requirements within this exhibit; or,
 - (b) The Cloud storage solution used is FedRAMP certified.
- (3) If the Data includes protected health information covered by the Health Insurance Portability and Accountability Act (HIPAA), the Cloud provider must sign a Business Associate Agreement prior to Data being stored in their Cloud solution.
6. **System Protection.** To prevent compromise of systems which contain DSHS Data or through which that Data passes:
- a. Systems containing DSHS Data must have all security patches or hotfixes applied within 3 months of being made available.
 - b. The Contractor will have a method of ensuring that the requisite patches and hotfixes have been applied within the required timeframes.
 - c. Systems containing DSHS Data shall have an Anti-Malware application, if available, installed.
 - d. Anti-Malware software shall be kept up to date. The product, its anti-virus engine, and any malware database the system uses, will be no more than one update behind current.
7. **Data Segregation.**
- a. DSHS Data must be segregated or otherwise distinguishable from non-DSHS data. This is to ensure that when no longer needed by the Contractor, all DSHS Data can be identified for return or destruction. It also aids in determining whether DSHS Data has or may have been compromised in the event of a security breach. As such, one or more of the following methods will be used for data segregation.
 - (1) DSHS Data will be kept on media (e.g. hard disk, optical disc, tape, etc.) which will contain no non-DSHS Data. And/or,
 - (2) DSHS Data will be stored in a logical container on electronic media, such as a partition or folder dedicated to DSHS Data. And/or,
 - (3) DSHS Data will be stored in a database which will contain no non-DSHS data. And/or,

Special Terms and Conditions

(4) DSHS Data will be stored within a database and will be distinguishable from non-DSHS data by the value of a specific field or fields within database records.

(5) When stored as physical paper documents, DSHS Data will be physically segregated from non-DSHS data in a drawer, folder, or other container.

b. When it is not feasible or practical to segregate DSHS Data from non-DSHS data, then both the DSHS Data and the non-DSHS data with which it is commingled must be protected as described in this exhibit.

8. **Data Disposition.** When the contracted work has been completed or when the Data is no longer needed, except as noted above in Section 5.b, Data shall be returned to DSHS or destroyed. Media on which Data may be stored and associated acceptable methods of destruction are as follows:

Data stored on:	Will be destroyed by:
Server or workstation hard disks, or Removable media (e.g. floppies, USB flash drives, portable hard disks) excluding optical discs	Using a "wipe" utility which will overwrite the Data at least three (3) times using either random or single character data, or Degaussing sufficiently to ensure that the Data cannot be reconstructed, or Physically destroying the disk
Paper documents with sensitive or Confidential Information	Recycling through a contracted firm, provided the contract with the recycler assures that the confidentiality of Data will be protected.
Paper documents containing Confidential Information requiring special handling (e.g. protected health information)	On-site shredding, pulping, or incineration
Optical discs (e.g. CDs or DVDs)	Incineration, shredding, or completely defacing the readable surface with a coarse abrasive
Magnetic tape	Degaussing, incinerating or crosscut shredding

9. **Notification of Compromise or Potential Compromise.** The compromise or potential compromise of DSHS shared Data must be reported to the DSHS Contact designated in the Contract within one (1) business day of discovery. If no DSHS Contact is designated in the Contract, then the notification must be reported to the DSHS Privacy Officer at dshsprivacyofficer@dshs.wa.gov. Contractor must also take actions to mitigate the risk of loss and comply with any notification or other requirements imposed by law or DSHS.

10. **Data shared with Subcontractors.** If DSHS Data provided under this Contract is to be shared with a subcontractor, the Contract with the subcontractor must include all of the data security provisions within this Contract and within any amendments, attachments, or exhibits within this Contract. If the Contractor cannot protect the Data as articulated within this Contract, then the contract with the subcontractor must be submitted to the DSHS Contact specified for this contract for review and approval.

AAA DSHS / HCA Systems Access Request

AAA Adding Users

An Area Agency on Aging (AAA) may request access to various systems for its employees or contractors (AAA Users) under its Data Share Agreements (DSA) with DSHS and HCA. This Systems Access Request (SAR) form must be signed by the AAA Authorizer and AAA User then sent to the ALTSA SUA Coordinator via secure email at: hcsaaarequest@dshs.wa.gov.

AAA Removing Users

The AAA Authorizer must also notify the DSHS ALTSA SUA Coordinator using the SAR form within five (5) business days whenever an employee (AAA User) with access rights leaves employment or has a change of duties such that the employee no longer requires access. If the removal of access is emergent, please include that information with the request.

AAA Subcontractors Adding Users

If access is being requested by an AAA subcontractor, the subcontractor must send the SAR form to the AAA via secure email, who will then send it to the ALTSA SUA Coordinator via secure email at hcsaaarequest@dshs.wa.gov. The ALTSA SUA Coordinator will accept the completed SAR form only from the AAA, not the subcontractor.

AAA Subcontractors Removing Users

The AAA subcontractor must also use the SAR form to provide notice to the AAA within five (5) business days whenever a subcontractor employee (AAA User) with access rights leaves employment or has a change of duties such that the employee no longer requires access. If the removal of access is emergent, please include that information with the request.

DSHS and HCA will grant / remove the appropriate access permissions to the AAA User.

AAA Systems Access Request Instructions

Please submit requests individually.

The AAA DSHS / HCA Systems Access Request form is for use by AAA entities from outside and within the DSHS domain (DSHS firewall). AAA entities have different procedures to request the majority of their needed system access but will use the form for those systems requiring a set up or approval by HCS, DDA, or MSD. AAA entities will also use this form when staff transfer between agencies or to terminate access when employees leave employment.

Request Type

- Check one of the options (New, Update, Remove, or Name change). **Removal must be submitted within five (5) days of exit.**
 - New user – The user has been approved for access to one of the programs listed and has no previous requests submitted.
 - Update user – User has access to one or more of the systems listed but an additional access is needed. Only mark the box next to the additional item.
 - Remove user – Mark each of the boxes for which access is to be removed.
 - Change user name – Use to update the user name due to a change. For ProviderOne this will result in the termination of the prior account and a new account created.

Requesting Organization and Mailing Address

- Enter the user's office name and address (subcontractors enter their organization name and address).

System Access Requested Sections

- Check the box next to each system requested and attach any additional documentation required for the program. If you need a copy of the VPN form, please contact ALTSA. Check one of several options: HCRR; Case Manager; HQ; Finance L2; or Finance L1 next to IPOne.
- Applications in the DSHS Active Directory (AD) section require a DSHS domain account (e.g. an email address that ends in @dshs.wa.gov). In order to use these applications, staff must log in to their computer with their DSHS AD account.
- ALTSA Data Mart. Access is specific to each data source. If both data sources are needed, both boxes must be selected.
- Applications in the AAA section (Barcode, DDA / HCS Reporting, CARE, QA Monitor) are created at the AAA office. A signed copy of the 17-226 form must be submitted to hcsaaarequest@dshs.wa.gov via secured email before the account(s) can be created.
 - **Note:** The PRISM and Client Registry boxes should be checked if the new staff member will be eligible for access. An extra step of user and ethics training will be required for all PRISM and Client Registry users and must be completed prior to system access.
 - Barcode field can be one of the following options: AAA-IT; RC-SPEC; CLER-SUP; CLERICAL; CM-JRP; CM-MTD; CM-SUP; or INTERN. These relate to the new access profiles in Barcode.
 - ACD – Contracts Database can be one of the following options: 4 – Sign Contracts; 5 – Create Contracts; or 8 – Approve Contracts.
- IPOne field can be one or more of the following options: CM role, HQ role, HCRR role, Finance L1, Finance L2.
 - Finance L1 and Finance L2 roles require additional approval from the W2 Financial Reports team.
 - Form will be rejected if the box is checked but the field is blank.

AAA User Information

- Enter the user information as indicated. DATE OF BIRTH (DOB) is only required when selecting ProviderOne or IPOne – for all other applications it should be blank. Forms with DoB submitted by Colville, King, Kitsap, Pierce, Snohomish, and Yakama should be submitted using secure email or secure file transfer.
- The AAA Authorizer will assign an ID number from the list provided by the ALTSA SUA Coordinator.
 - Form will be rejected if this field is leftblank.
- Under AAA Office enter the AAA Authorizer's regional office.

Access Justification

- Enter reason access is needed such as Case Management and Coordination, Nursing Coordination, Oversight and Supervision, Determination of Eligibility.

Authorizing Signature

- AAA Authorizer – the authorizer will be verified by the ALTSA SUA Coordinator.
Note: AAA Authorizer signature guarantees that the staff member who is asking for access is eligible for the systems access requested.

Non-Disclosure of Confidential Information

- Ensure that the AAA staff member has read the AAA User Agreement on System Usage and Non-disclosure of Confidential Information on the second page of the AAA Systems Access Request form.
- Enter the requesting user's name and have them sign and date the agreement.

Once completed, scan both sides of the form and email to hcsaaarequest@dshs.wa.gov using secure email. Do not email forms directly to ALTSA Helpdesk or ALTSA Helpdesk staff.
