Please print your six preferred road names on the lines provided below. In addition, please show adjacent and intersecting roads and all driveways for each parcel using the easement road and any obvious landmarks on a parcel map from the Kitsap County Assessor's office. When the road name is approved, you will receive written notification with instructions for placement of the sign.

**To assist you with selecting your preferred names we have included the following guidelines:**

1. No road name shall be used more than once. For example, two roads may not be named Cedar even if they have different road types.
2. Road names shall not sound alike. For example, two roads may not be named Stephen and Steven.
3. Names that tend to be mispronounced or misspelled shall not be used. For example, names like Javelina, Weimaraner, and Perseverance are either hard to spell or pronounce and would be subject to increased scrutiny during the name review process.
4. Road names should be composed of one word wherever possible and limited to thirteen characters or less. This does not include directionals or identifiers which are assigned by the department according to the Kitsap County official grid map. Two-word names or one-word names that can be confused as two-word names shall not be used. For example, names like Clearlake, Clear Lake, and Baytree would not be acceptable.
5. Names that include directional words such as North, South, East, or West shall be avoided. For example, North East Beach would not be acceptable.
6. Except where historically significant, road names shall not include proper names.
