

## **ADDENDUM #2**

### **KITSAP COUNTY STOTTLEMEYER TRAILHEAD**

#### **IFB 2023-053**

**TO:** All Respondents  
**FROM:** Glen McNeil, Purchasing Supervisor  
**CLOSING DATE:** Tuesday, November 28, 2023, at 2:00 p.m. (UNCHANGED)  
**REF NO.:** IFB 2023-053  
**DATE:** November 22, 2023

---

This addendum is to address late question submissions for 2023-053.

Q) As discussed, Seton is needing clarification on the Lump Sum Landscaping bid item for the above project. The project special provisions and plan set call for plantings to be placed within the bioretention cells along with an explanation as to what plant species goes in what zone, but there is no plant count or plant spacing for the contractor to quantify the number of plants going in.

The 1 gallon and 5-gallon plants can be expensive, so the contractor needs to be able to calculate the number of plants required to give an accurate bid. Can you County give this information?

- A) For the purposes of bidding plant quantities should be estimated at 1-ft spacing for 1-gallon sizes and below for zone 1 and 2 areas. There are no zone 3 plantings (therefore no 5-gallon plants).
